Department of Education, is pleased to invite you and your colleagues to join for a Two Weeks Faculty Development Programme on Research Methodology from 23<sup>rd</sup> Nov. to. 05<sup>th</sup> Dec, 2020. Doing research on a particular topic in a particular

field is quite a complicated process which demands for several skills and a depth of knowledge about Research. Therefore, this two weeks Faculty Development Programme is intended to bring excellence and exploration in research among the aspiring minds. This programme has tried to cover all the different aspects of 'Research Methodology' which may create difficulties and curiosity in the mind of a researcher while and before conducting a research. It is essential for a faculty to keep himself/herself upto date knowledge, therefore, the Faculty Development Programme will definitely be a milestone in resolving their research related problems. It has been found that from the beginning i.e selection of a research problem, there is a gap in collecting data, understanding of information (with its application) and handling the data properly according to the nature of the study and nature of the variables, last but not the least part technically arrange the references etc. this FDP Programme intends to develop some basic ideas of several software packages to analyze data more efficiently and in a user friendly way. This programme will help the participants to get acquainted with the widely accepted and used package SPSS, R and AMOS. So please avail benefit of the following proposed programme and groom your knowledge and skills pertaining to research methods and techniques publications and other aspects.
